

1. 1-5 pole terminal strip with 5X20mm fuse holder to IEC257
2. Interlocking fuse holder JEF-507B1~B5
3. IP20 finger protection
4. This part is intended for use with up to 4mm² wire
5. Standard 1 to 5 pole with earth screw
6. Meets creepage and clearance requirements of IEC(8mm)
7. 16 mm fixing pitch

A. Regarding the ratings :

For the fused terminals : the ratings are 250V, 13A.

For the additional terminals : the ratings are 450V, 20A.

B. Working temperature: -20°C to 120°C

C. Moulding: UL94-V0 flame retardant PA

D. Terminal:	Brass,nickel plated
--------------	---------------------

E. Fuse clip: Phosphor bronze

F. Fuse is applied on: 5X20mm glass or ceramic
